

The first I heard of APWireless was when we received a letter from them asking about the cell tower. There was a phone number which we called & Mike was the person we talked to. He told us about one of your offers but we weren't interested.

Mike called us several times & we ended up working out a deal. Thanks to Mike each time that we weren't satisfied with the wording he was very nice at either changing it, or explaining why they couldn't.

I appreciate his honesty & the way he handled our deal.

Thanks Mike.
